CCA MISSION, VALUES, AND GOALS

California College of the Arts educates students to shape culture and society through the practice and critical study of art, architecture, design, and writing. Benefitting from its San Francisco Bay Area location, the college prepares students for lifelong creative work by cultivating innovation, community engagement, and social and environmental responsibility.

COMPUTER AND TECHNOLOGY REQUIREMENTS

Recognizing that digital literacy is essential to art and design education, CCA requires that incoming students own a laptop that meets the minimum system requirements for software used in the first year curriculum. This requirement will help ensure that all students have access to the college's digital resources at home or on campus. As collaboration is a foundation of our curriculum, owning a laptop will promote communication and research, as well as making, in and out of the classroom. If a student knows their intended major, they should check the recommended bundle for their academic program.

CREATIVE ACCORD

CCA's Creative Accord is a cultural and ethical touchstone for all members of the CCA community. This collective agreement allows us to hold each other accountable and gives us something to aspire to as a creative community.

There are four principles that comprise the Creative Accord. These principles unite the CCA community by naming our shared values, helping us understand why we do what we do, discovering common goals in hard moments of misunderstanding, and creating opportunities for inclusion.

The four Creative Accord principles:

- **RADICAL RESPONSIBILITY:** We approach our craft with the understanding that we are interconnected and responsible creative-citizens.
- **THINK BEYOND:** We examine and apply critical curiosity to ourselves, others, and our craft.
- **CULTIVATE CREATIVE ACTION:** We utilize different tools to advocate for informed social change that impacts us, our making, and our community.
- **BECOME CHIMERAMADE:** We actively contribute to being part of a creative community.

Actions in the world require awareness of shared community values to catalyze collective action. CCA's Creative Accord provides a personal and collective roadmap to becoming good neighbors and global creative-citizens.
