GAHTC | GLOBAL ARCHITECTURAL HISTORY TEACHING COLLABORATIVE

The Global Architectural History Teaching Collaborative lecture library now has over 200 lectures on its free, teacher-to-teacher platform and continues to grow as scholars from all over the world join the GAHTC, and contribute their research, helping the collaborative to thrive.

This workshop by Dr. Vikram Prakash will introduce the materials of GAHTC, how to use them effectively, and the common problems faced by faculty learning to teach globally.
